

Cyber Security Certificate Credits
Program Area: Computer Information Systems (Fall 2020)

*****REMEMBER TO REGISTER EARLY*****

Program Description

The Cyber Security certificate is designed to prepare participants with prior computer experience or a previous networking degree with fundamental requisite security concepts and best practices required to implement, administer, and harden operating systems. The curriculum in this program will help prepare students for the EC-Council Certified Ethical Hacker (CEH) certification.

One credit Cyber Security Certificate transfers seamlessly into LCC's Cyber Defense Certificate credits. Network Administration and Security Diploma credits and AA degree credits.
